

# COP28 & CLIMATE CHANGE LEADERSHIP

Human Capital Development Program

# [1]

## COP28 & CLIMATE CHANGE LEADERSHIP

With eyes firmly fixed on the future, the UAE is determined to rise to the challenge of COP28 as host nation and is poised to elevate its capabilities and competencies across all sectors, leveraging its ambition and drive to deliver. Ready to take charge of sustainable innovation and become a catalyst for change? You will advance to the forefront of the UAE's efforts before COP28 thanks to this climate change course. Along with developing a thorough understanding of policies,

strategies, and targets related to climate mitigation, you'll also learn about the vital role that organizations, businesses, people, and partnerships play in promoting climate action. By mastering the skills necessary to empower your industry's sustainability efforts, you'll be able to confidently network with professionals from a wide range of industries and disciplines, all with a keen focus on COP28. This is your chance to become a true leader in the fight against climate change.

### WHY CHOOSE THIS COURSE?

It will enable you to:

#### BUSINESSES & GOVERNMENTS

- Empower your industry to catalyze sustainability efforts
- Take action and drive net zero transition within your company
- Disrupt current policies in order to lead sustainable change
- Lead sustainability efforts as a powerhouse sustainability ambassador
- Upskill sustainability and climate action expertise within your team to stay ahead of industry trends

Delivery Method  
**Hybrid - face to face & immersive\***

Duration  
**8 / 4 / 2 weeks or customized**

Class Timing  
**Weekdays**

#### \*IMMERSIVE LEARNING EXPERIENCE

Innovative learning experience in the metaverse, supported by our cutting edge AR & VR technologies

#### INDIVIDUALS

- Become climate literate and confidently network at COP28
- Disrupt old policies and lead sustainable change within your organization
- Champion the sustainable transformation in a rapidly changing world
- Identify effective and impactful solutions for all dimensions of climate change
- Be a leader in sustainable innovation and position your company as a front-line advocate
